

Demographic Extract Layout Public

Initial Criminal Demographic Extract – A quarterly run point-in-time compilation of case numbers and data in the fields determined by the NCAOC to identify an individual within all criminal and infraction case records in the active Odyssey database. The demographic extract contains data about the defendant only; it contains no data about substantive offenses charged, the nature of the criminal process, court appearance dates, or any other case data.

DATA RECORD LAYOUT FOR CASE DELETE (“00” Record Type)

BEG POS	END POS	LEN	DESCRIPTION
