Curious Minds

Protecting girls' rights is
protecting the dignity of
Humanity

Curious Minds

Curious Minds Ghana

@cmghana

Domestic violence, child labour, human trafficking, discrimination and violence against persons with disabilities, prolonged pre-trial detentions and prison conditions are some of the other significant [#humanrights](#) challenges the country continues to face.

[#CMGhana](#) [#UPR](#) [#PWDs](#)

US State Department Findings

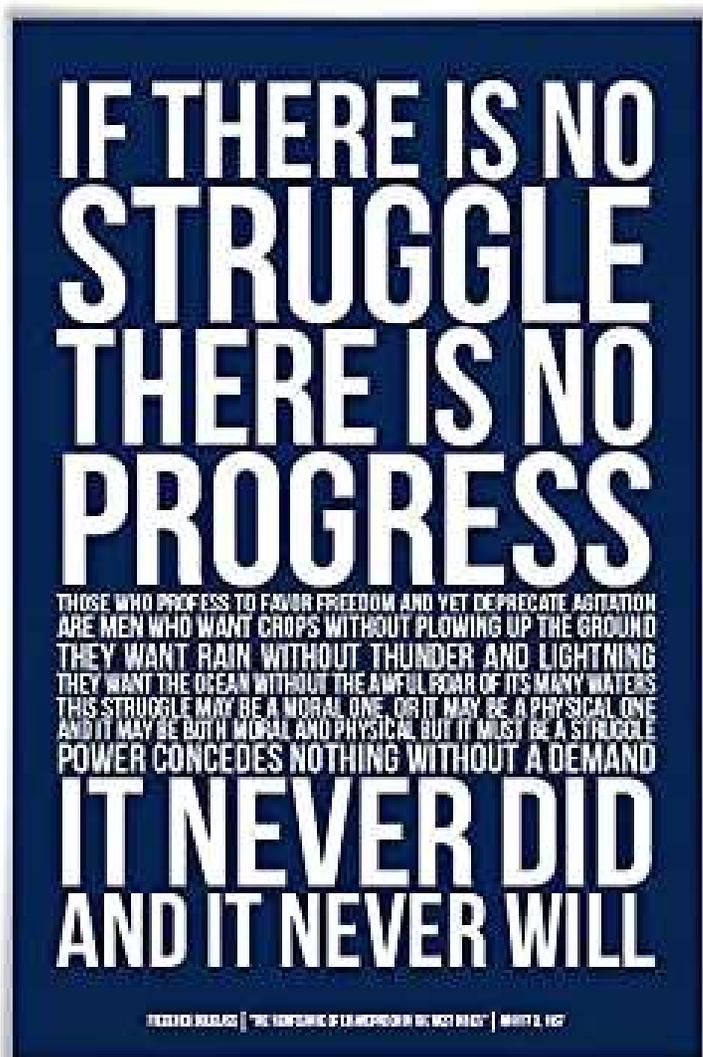

State Department Recommendations

- Increase efforts to investigate, prosecute, and convict traffickers; increase stakeholder cooperation; improve data collection
- Train law enforcement and judicial officials on identifying, investigating, and prosecuting trafficking cases
- Increase efforts to prevent exploitation of Ghanaian workers abroad
- Increase funding and resources for law enforcement and streamline cooperation with the Department of Social Welfare to enable criminal investigations and victim identification.
- Train law enforcement and service providers on the standard operating procedures (SOPs) to identify victims and refer them to services; implement the procedures in all regions.
- Increase the quantity and quality of care available to victims, including by providing financial and in-kind support to civil society providing victims shelter and services.
- Proactively screen for trafficking indicators among vulnerable populations—including Ghanaian women traveling abroad for domestic work, returning migrants, domestic and foreign workers —and refer trafficking victims to services.

Takeaways

- Context is different, but similar themes
- Importance of Public Recognitions/Awareness
- Difficulty of Economic Realities
- Difficulty of Lack of Human Dignity
