Table 4: Regression Model of Population Density and Democratic Support (weighted)

Dependent Variable: Average Democratic Vote Share	County		VTD	
Population Density of County	0.10***	0.06***	0.09***	0.06***
	(0.02)	(0.015)	(0.003)	(0.002)
Proportion of County African American		0.007***		0.69***
		(0.0006)		(0.009)
Number of Observations	100	100	2,692	2,692

Note: Linear regression model, weighted by county (or VTD) population size, coefficients shown with standard errors below. *** $p < .001$, ** $p < .01$, * $p < .05$, two-tailed tests.
