Overview

In June 2018 the NC General Assembly appropriated \$1.5M in nonrecurring funds to the NC Administrative Office of the Courts to be allocated to the NC Human Trafficking Commission (the "Commission") to support the provision of services to victim-survivors of human trafficking in North Carolina. The Commission completed one round of grant solicitations in December 2018.

The Commission is particularly interested in applications that focus in the four program areas outlined below. The Commission encourages programs to involve partnerships and collaborations, and to utilize best practices, to meet the needs of victim-survivors of human trafficking.

If you have questions related to the application, please contact:

Christine Long, Executive Director, by email at Christine.S.Long@nccourts.org

History

The North Carolina Human Trafficking Commission is the legislatively mandated leader of anti-human trafficking efforts in North Carolina per S.L. 2013-368. The Commission is charged with receiving funding to examine and combat human trafficking; funding and facilitating research; creating measurement, assessment, and accountability measures; informing and educating law enforcement personnel, social services providers, and the general public; suggesting new policies, procedures, and legislation; developing regional response teams; and identifying gaps in law enforcement or service provision and recommending solutions to those gaps. The Commission is housed in the NC Administrative Office of the Courts.

Length of Awards

Twelve (12) months

Additional Conditions of Eligibility

Nonprofit organizations must have been in operation with 501(c)(3) status for a minimum of one (1) year to be eligible for funding. The Commission reserves the right to request any applicant agency's most recent external audit, if deemed necessary to determine award of the project.

Faith-based organizations applying for funds do not have to modify their religious identity (i.e. removing religious symbols) to be considered an eligible applicant. However, these funds may not be used to fund any inherently religious activity, such as prayer, worship, or proselytization. Inherently religious activity is permissible, although it cannot occur during an activity funded with grant funds; such religious activity must be separate (in time and/or place) from the grant funded program. Further, participation in such religious activity by individuals receiving services must be voluntary. Organizations must ensure that services are offered to all crime victim-survivors without regard to religious affiliation and that the receipt of services is not contingent upon participation in a religious activity or event.

I. FUNDING PRIORITIES

The Commission is charged by the NC General Assembly with identifying gaps in service provision to victim-survivors of human trafficking and recommending solutions to those gaps, per S.L. 2013-368. Since 2014, the Commission has participated in various state, regional, and national advisory committees, studies, collaboratives, and compendiums. Throughout the past three years, the Commission has invited regional response programs and other stakeholders from the mountains to the coast to share human trafficking trends and anti-trafficking program challenges and needs in their regions. Numerous state and local agencies and regional response coalitions, both public and private, have presented to the Commission and participated in a think tank hosted by the Commission. These stakeholders, and many others, have provided tremendous insight into gaps across the state. Considering what the Commission has learned from stakeholders and anti-trafficking efforts at the state, regional, and national level, the Commission has determined the following strategic funding

priorities for this RFP. Applications must specify and fall within one of these four (4) funding priorities:

A. Regional Response Programs:

Proposals will be accepted to create a regional response program in a county or counties in NC (the "Region") where there is no current 24/7 response for victim-survivors of human trafficking who are physically located in the Region. Requirements:

1. An agreement between one (1) law enforcement agency and one (1) direct victim service provider in the Region to work together to (a) respond to requests for assistance 24/7 to meet victim-survivors' urgent and short-term needs, and to (b) develop a response team that meets at least quarterly to, among other things, conduct case reviews and develop protocols and other working agreements to support a coordinated and comprehensive response in the Region.
2. MOUs or LOIs from additional public and private agencies in the Region confirming their agreement or intent, respectively, to participate in the response team.
3. The Direct Service Provider must be willing to be listed with the National Human Trafficking Hotline and provide 24/7 response to victim-survivors in the Region, and must have a plan/program that enables this 24/7 response.
4. Population served must be any victim-survivor of human trafficking.

B. Labor Trafficking Initiatives:

Proposals will be accepted to conduct strategic outreach and case management to victim-survivors of labor trafficking in North Carolina.

One goal of the program must be to identify victim-survivors and to provide, at a minimum, short-term case management to address basic needs and connection to legal services, etc.

C. Intersection of Human Trafficking & The State Corrections System

Proposals will be accepted to identify victim-survivors of human trafficking in the state corrections system and connect them with services, supporting state efforts to clarify and institutionalize the appropriate roles of the corrections system and its partners in addressing human trafficking in North Carolina. Requirements:

1. Develop practical tools and/or training on best practice identification and referral for services.
2. Address victim-offender duality, including the dynamics of human trafficking victim-survivors who enter the state corrections system for human trafficking-related or other offenses.
3. Facilitate the identification of – and referral for services – of both sex and labor trafficking victim-survivors during incarceration and reentry.
4. MOUs with case management or other providers to work with survivors to secure safe housing and connect to community resources upon release.
5. MOUs with public and private justice system stakeholders.

6. Facilitate the identification – and referral for services – of both sex and labor trafficking victim-survivors in both civil and criminal proceedings.
7. MOUs with public and private justice system stakeholders.

D. Outreach to Youth

Proposals will be accepted to conduct job training, placement, and other targeted outreach, regarding the same, to youth who are victim-survivors of human trafficking and/or at risk of being trafficked. Requirements:
